Date: 10 January 2023

Report Number: 420191820

Shape: Brilliant

Carat Weight: 0.10 Carats

Colour Grade: D

Clarity Grade: SI

Cut Grade: Very Good

Polish Grade: Very Good

Symmetry Grade: Very Good

Fluorescence: None

### Comments & More Information

Graded Mounted

Description: 9ct Yellow Gold

Value US\$: \$2,214.56

Value GBP: £1,820.00

Value EUR: €2,062.48

### Identification Characteristics

# ONLINE COPY

The stone in accordance with the above mentioned number and description has been identified as a natural diamond

This report is not a guarantee. Any picture is an approximate representation of the item, and symbols shown indicate type, position and approximate size of clarity or other grading characteristics. Any valuation expressed herein is based upon the appraiser's best judgment and opinion and is not a representation or warranty that the item will realise that value if offered for sale. The values expressed herein are based upon current information provided on the date indicated and do not imply a past or present value. Any weights and measurements are approximate within accepted trade tolerances. Any accompanying report data or documents or certificates or hallmarks are accepted as genuine and factual and are treated as such on the basis that we do not guarantee to warranty their accuracy.

Where this certificate is issued on a diamond which is graded mounted, diamond and / or gem weights and / or other characteristics may be based on information supplied to us and are graded as the mounting allows. Values referred to in this report are based on GIE recommended insurance values, calculated according to current market values and are based on the opinion of GIE on the high end replacement value and based on fixed currencies conversions as determined by our currency exchange rate department. Due to currency fluctuation this might vary from time to time from current exchange rates.
